

Swine Innovation Porc

Novel swine feeding programs—Webcast

Discover the latest nutrition research outcomes and ways we can enhance competitiveness and pork differentiation in Canada.

Agenda:

10.10 – 11.10 **Dr. Ruurd T. Zijlstra, University of Alberta** - Inclusion of Dietary Co-products: Impact on Performance & Bottom Line.

11.10 – 12.10 **Dr. Kees de Lange, University of Guelph** - Novel Feeding Strategies for the growing pig: Simple v Complex.

12.10 – 1pm **Break**

1pm – 2pm **Dr. Candido Pomar, Agri Food Canada** - The impact of feeding growing-finishing pigs with daily tailored diets (precision feeding) on growth performance, nutrient excretion and feed costs

2pm – 2.30 **PorkMaster Demonstration.**

2.30 Q&A and Closing remarks - Stewart Cressman, Swine Innovation Porc.

18th February 2014 10am—3pm On line or in person!

Arden Park Hotel, Stratford, Ontario or via Webinar. The meeting will also include a tutorial in Pork Master.

PorkMaster Revision 3.00 Release:1 Build:15

A biology-based decision support system to assess the financial and environmental impact of alternative feeding strategies for growing-finishing pigs

Disclaimer
Knowledge of nutritional constraints and limitations is essential for the proper use of this software. Because of the many variables involved and judgments that must be made in choosing inputs and interpreting outputs, the developers of PorkMaster make no claim for the accuracy of this software and the user is solely responsible for risk of use.
