

2016 Manitoba Producer Meeting

Wednesday, April 6th
Niverville, Manitoba
Niverville Heritage Centre, 100 Heritage Trail

Time: 9:30 a.m. – 2:00 p.m.

9:00 REGISTRATION
Lunch will be provided

PROGRAM

Technology to Improve Swine Transportation, *Bernardo Predicala, Prairie Swine Centre*

- Transportation is a key component in the production process. Trailer design can have a significant impact on the stress during transport and impact the efficiency in which trailers can be cleaned properly.

Molds and Mycotoxins, What is the Impact & How Can We Minimize It?, *Dan Columbus, Prairie Swine Centre*

- Mycotoxins can have a significant impact on a producer's bottom line. How can we effectively manage and mitigate their impact in pork production

Understanding mortality and new tools to fight disease, *Robert Fitzgerald, PIC Canada*

- What is the real impact of mortality on the bottom line of your operation? New technologies that will help reduce the impact of disease in the future.

Technology to Improve the Barn Environment, *Bernardo Predicala, Prairie Swine Centre*

- What's new in the areas of sow housing, ventilation and sanitation?

Alternatives to Antibiotic Use, *Dan Columbus, Prairie Swine Centre*

- What are some of the alternatives to antibiotic usage on-farm and are they effective?

Full Value Pigs: “Understanding the Cost of Attrition”, *Don Down, Elanco Animal Health*

- Using data in making better, and more informed decisions that increase profit to your operation
